Poverty and Tax Policy: A Lay of the Land

Login at: https://results.zoom.us/j/873308801 or dial (929) 436-2866 or (669) 900-6833, Meeting ID: 873 308 801.
Welcome from Joanne Carter
Executive Director, RESULTS
Since 1960, renter's incomes have gone up by 5% while rental cost has gone up by 61%.

72.5% of extremely low-income renters are severely cost burdened, meaning they spend more than half their income on housing.
Rental Tax Credits Will Reduce Poverty

We must address this housing crisis -- and we can begin to do so by shifting tax resources to support a “Renters Tax Credit” for low- and moderate-income renters. Several policymakers have introduced legislation that does this (H.R. 2169 and S. 1106, H.R. 7050 and S. 3342 in the last Congress).

TAKE ACTION:
https://tinyurl.com/RESULTShousing
Share of Renters with Cost Burdens

- **Under $15,000**
- **$15,000–$29,999**
- **$30,000–$44,999**
- **$45,000–$74,999**
- **All Renter Households**

- **Severely Burdened**
- **Moderately Burdened**
The Low-Rent Stock Has Shrunk by Four Million Units Since 2011
Affordable Housing Crisis

RENTAL HOMES AFFORDABLE AND AVAILABLE PER 100 EXTREMELY LOW INCOME RENTER HOUSEHOLDS BY STATE

Note: Extremely low income (ELI) renter households have incomes at or below the poverty level or 30% of the area median income. Source: NLIHC tabulations of 2017 ACS PUMS Data.

Major Federal Rental Assistance Programs

Housing assistance programs lifted 2.9 million people above the federal poverty line in 2017.

But only one in four who need assistance receive it.
Renter Needs Outpace Homeowners but Homeowners Receive More Assistance
## One Solution: Renters Tax Credits

Vox
Housing and Racial Wealth Inequality

While homeownership has long been the leading source of household wealth in the U.S., it is fundamentally important to the wealth of households of color, as the home tends to account for a larger share of their assets compared to White households.

Unfortunately, despite homeownership being critical to the wealth of communities of color, these households build less wealth, on average, through homeownership than White households do.

RESULTS EYA Summer Intern
The 2019 Conference starts in just 10 days!

There’s still time for your last minute registration at www.resultsconference.org!
Final Details for the Conference

- **Conference Resources page:**
  
  www.results.org/resources/2019-international-conference-resources/

- **All things for Advocacy Day:**
  
  including, where to log in your upcoming lobby meetings

- Whether you’re coming to DC or not, read our **policy briefs and backgrounders**. If you are coming, please read BEFORE you arrive and if you want a copy in DC, please bring one with you.

- If you were not able to attend your state’s lobby prep call, please contact Jos Linn for a link to the recording.
Guest Speaker: Ellen Nissenbaum

- Senior Vice President for Government Affairs for CBPP (www.cbpp.org)
- Has directed CBPP’s work with federal policymakers and national organizations since 1984
- Works on federal budget and tax issues Medicaid and health care, nutrition programs, and other critical policies
- Regarded as one of the leading legislative directors among non-profit organizations in Washington
- Assists national and state organizations and coalitions on key policy developments in Congress and the Executive Branch, strategic guidance, and communications planning
- Regularly speaks at conferences, in briefings for policymakers, and with news outlets on federal budget issues.
What is the Earned Income Tax Credit?

• A federal tax credit for low- and moderate-income working people.
• The EITC is “refundable,” which means that if it exceeds a low-wage worker’s income tax liability, the IRS will refund the balance.
• Encourages work and offsets federal payroll and income taxes.
• The EITC benefited 26 million working households in 2018; it’s expected to lift more than 5 million people out of poverty in 2019, and make another 19 million less poor.
• The EITC and Child Tax Credit provide substantial benefits to millions of families already.
• In 2019, the credits combined are expected to lift 10 million people, including 6 million children, above the poverty line and reduce the depth of poverty for another 20 million individuals (including 7 million children).
What is the Child Tax Credit?

• A federal credit that helps working families offset the cost of raising children.

• It is worth up to $2,000 per eligible child (under age 17 at the end of the tax year). The CTC also includes a $500 non-refundable credit for families with qualifying non-child dependents.

• Currently, the structure of the CTC results in children in the poorest families receiving no CTC and many other children receiving only a small, partial credit. It’s not until a taxpayer’s earnings reach $2,500 that the CTC begins to phase in at a rate of 45 cents for each additional dollar of earnings until it reaches the $2,000-per-child maximum.

• Under a fully refundable CTC, there would be no phase-in, and all children in poverty would benefit from the full credit regardless of how much income their parent earns.
Value of Earned Income Tax Credit, 2018

- **Filing Status:** Married
- **Number of Children:** Two
- **Household Earnings:** $20000

Note: Assumes all income is from earnings (as opposed to investments, for example).

Earned Income Tax Credit and Child Tax Credit Have Powerful Antipoverty Impact

Note: Unlike the Census Bureau’s official poverty measure, the SPM counts the effect of government benefit programs and tax credits.

Working-Family Tax Credits Help at Every Stage of Life

The Earned Income Tax Credit (EITC) and Child Tax Credit (CTC) not only reward work and reduce poverty for low- and moderate-income working families with children, but a growing body of research shows that they help families at virtually every stage of life:

**Improved infant and maternal health:** Researchers have found links between increased EITCs and improvements in infant health indicators such as birth weight and premature birth. Research also suggests receiving an expanded EITC may improve maternal health.

**Better school performance:** Elementary and middle-school students whose families receive larger refundable credits (such as the EITC and CTC) tend to have higher test scores in the year of receipt.

**Greater college enrollment:** Young children in low-income families that benefit from expanded state or federal EITCs are more likely to go to college, research finds. Researchers attribute this to lasting academic gains from higher EITCs in middle school and earlier. Increased tax refunds also boost college attendance by making college more affordable for families with high-school seniors, research finds.

**Increased work and earnings in the next generation:** For each $3,000 a year in added income that children in a working-poor family receive before age 6, they work an average of 135 more hours a year between ages 25 and 37 and their average annual earnings increase by 17 percent, leading researchers have found.

**Social Security retirement benefits:** Research suggests that by boosting the employment and earnings of working-age women, the EITC boosts their Social Security retirement benefits, which should reduce poverty in old age. (Social Security benefits are based on how much one works and earns.)
Higher Earned Income Tax Credit or Other Income for Poor Children Expected to Boost Work and Earnings Later in Life

$3,000 annual increase in income to poor children before age 6 associated with increase in work hours when they become adults

+$3,000 a year
+135 working hours a year

For each $3,000 a year in added income that children in a poor family receive before age 6...

...their working hours rise by 135 hours a year between ages 25 and 37, and their annual earnings rise by 17%.*
EITC Does Little to Offset Federal Taxes for Low-Income Childless workers

Childless Adults Taxed Into Poverty; Earned Income Tax Credit (EITC) Proposal Would Help Address Problem

A single childless adult with poverty-level wages in 2019 ($13,340) owes $1,135 in income taxes and payroll taxes (employee share).

**Current law**
Under current law, she receives an EITC worth just $172.

**Federal taxes push her $963 into poverty.**

**Working Families Tax Relief Act**
Under a proposal from Senators Brown, Bennet, Durbin, and Wyden, her EITC would rise to $1,797, more than offsetting her federal tax liability.

**After taxes, she would be $662 above the poverty line.**

*Source: CBPP analysis of Internal Revenue Code and the Working Families Tax Relief Act.*
2017 TAX LAW IMPACT ON LOW-INCOME FAMILIES

- Millions of low/moderate-income working families left out
- Did nothing to address wage stagnation—no EITC boost
- Failed to stop taxing low-wage working adults into poverty
- For the first time, capped the refundable CTC while extending the credit to very wealthy families
- Provided very modest boost ($75 or less) to the CTC for 11m lowest-earning households with kids
- Fiscal impact/long-term consequences
EITC/CTC TOP POLICY GOALS

1. Expand the EITC for working families with children

2. End taxing low-wage workers not raising kids into poverty: boost the small EITC for this group (size of credit; extend to younger/older workers)

3. Make the CTC fully refundable (UW: next step towards that....)
THE WORKING FAMILIES TAX RELIEF ACT WOULD:

- Expand the EITC for families with kids;
- Deliver a meaningful EITC for the first time for workers who don’t have kids at home;
- Make the Child Tax Credit fully refundable; and
- Create a new Young Child Tax Credit for families with kids under 6

THESE POLICIES WOULD BENEFIT 46 MILLION FAMILIES.
THE WORKING FAMILIES TAX RELIEF ACT
EXPANDS THE EARNED INCOME TAX CREDIT AND CHILD TAX CREDIT.

THIS WOULD HELP 114 MILLION PEOPLE, INCLUDING 49 MILLION CHILDREN.
By expanding the Earned Income Tax Credit and Child Tax Credit, the Working Families Tax Relief Act would lift 29 million people above or closer to the poverty line, including 11 million children.
The Working Families Relief Act’s expansions of the Earned Income Tax Credit and Child Tax Credit would boost incomes across races, helping:

- 24 million white families;
- 9 million Latino families;
- 8 million Black families; and
- 2 million Asian-American families
Renter’s credit

• Renters make up one out of every three households. Yet, federal spending on housing disproportionately favors homeownership over renting,

• Low-income renters, however, are far more likely to pay a very high share of their income for housing

• Congress could better balance housing policy — and tax policy in the housing area — by establishing a new tax credit helping low-income renters offset high housing costs.

• The renters’ credit proposal would provide federal tax credits to make housing affordable for low-income renters. Families assisted with credits generally would pay no more than 30 percent of their income for rent.
Short-Term Opportunity & Next Steps

Short-term:
- Tax extenders – House W/Means Chairman Neal proposes to expand the EITC for low-wage workers not raising children
  – Senate dynamics & challenges

Longer-term:
- House side: New companion bill – Kildee/Evans
- Accountability for the policy goals
- Build bipartisan support
Grassroots Board Nominees

Maxine Thomas
RESULTS Indianapolis

William Cosgrove
RESULTS Salt Lake City
Grassroots Board Nominations

- One Grassroots Board member set is up election this summer
- Grassroots Board members are YOUR voice on the Board of Directors and Executive Committee of RESULTS/RESULTS Educational Fund
- Voting is open until **midnight, Sunday, July 28**
- All active RESULTS volunteers are eligible to vote

**VOTE HERE**

- Alternatively, you may vote in person at the RESULTS International Conference
- Read more at: [https://results.org/blog/results-2019-grassroots-board-nominations/](https://results.org/blog/results-2019-grassroots-board-nominations/)
New to RESULTS?

Find action alerts, lobbying resources, monthly actions, weekly updates, national webinars, and more!
RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists. We commit to opposing all forms of oppression, including racism, classism, colonialism, white saviorism, sexism, homophobia, transphobia, ableism, xenophobia, and religious discrimination.

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn’t fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.

Find all our anti-oppression resources at: [https://results.org/volunteers/anti-oppression/](https://results.org/volunteers/anti-oppression/)
Join our “Call-in/Call-out” Anti-Oppression Training on July 9

Join us to review why anti-oppression work matters for our advocacy and discuss methods of responding to oppressive behavior using the RESULTS Call-in/Call-out Guide.
