Our Anti-Oppression Values

The RESULTS logo consists of the word "results" in a white, lowercase, sans-serif font, positioned inside a red speech bubble shape that points downwards.

RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists.

We commit to opposing all forms of oppression, including racism, classism, colonialism, white saviorism, sexism, homophobia, transphobia, ableism, xenophobia, and religious discrimination.

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.

U.S. Poverty Update

What Congress should do next

In virtual lobby meetings and your media work, push lawmakers to fill the gaps that remain, including:

- \$100 billion in [emergency rental assistance](#)
- [National eviction moratorium](#)
 - Only one in four rental properties are covered under the current federal eviction moratorium
- 15 percent increase in the maximum SNAP benefit for [nutrition assistance](#)
- Expansions of the Earned Income Tax Credit and Child Tax Credit

Key to both build momentum for policymakers to include these in initial proposals, and that they should be a bipartisan priority in negotiations.

Our Advocacy Strategy

Influence

Trust

Relationships

Unprecedented Interest = Opportunity

**But Motivation
Must Be**

Greater than

**The Barriers to
Entry**

What are the Barriers?

What are the Barriers?

- It's new and overwhelming
- I could never be as good as they are at this
- I don't know anything about these issues
- I've never done advocacy—it seems really hard
- Nobody seems to care I'm around—don't feel welcome
- These people all know each other—I'm really an outsider
- The group seems disjointed—I don't know when they meet
- It's hard to get to know people
- I don't understand when they do this
- There's so much lingo

The Question

The logo for 'results' is a red speech bubble shape with the word 'results' written in white lowercase letters inside.

How do we ensure new advocates get what they need so their motivation stays high?

The Exercise

Work in groups of 4 in a breakout rooms for 5 minutes.

Goal: Map out your step-by-step process for working with a new advocate to overcome barriers and keep them motivated.

Agenda

- Introduce yourselves: full name, where you are located
- Map out the step-by-step process
- If a step includes a conversation, include details on what you would discuss
- Be ready to share some ideas when we regroup

What did you come up with?

In India, notification of new TB cases plummeted by 80 percent when national lockdown measures went into effect.

In South Africa, which has the highest TB-HIV co-infection burden in the world, TB diagnoses on Xpert machines has fallen by 50 percent.

Immunization campaigns and new national vaccine introductions have been suspended, which collectively would have immunized over 13.5 million people.

In Pakistan, electronic immunization records have enabled providers in the Sindh province to document a 65 percent decrease in childhood immunization visits.

Nine out of 10 children around the world - 1.5 billion students - are affected by school closures.

Without urgent action, the number of people facing hunger will double to 265 million. In modeling the impact of COVID-19, wasting is the single biggest driver of increased child deaths.
