RESULTS Anti-Oppression Values

The RESULTS logo consists of the word "results" in a white, lowercase, sans-serif font, positioned inside a red speech bubble shape that points towards the bottom left.

RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists.

We commit to opposing all forms of oppression, including racism, classism, colonialism, white saviorism, sexism, homophobia, transphobia, ableism, xenophobia, and religious discrimination.

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.

Remarks from Executive Director Dr. Joanne Carter

COVID Deal

Bipartisan package includes:

- \$25 billion in emergency rental assistance with a priority for low-income renters most at risk of eviction (more on the housing specifics [here](#))
- Extends the national CDC eviction moratorium for one month (see [revised CDC declaration form](#))
- 15 percent boost to SNAP for six months to help families put food on the table (more on food assistance [here](#))
- Key changes to boost the Earned Income Tax Credit (EITC) and Child Tax Credit (CTC) for low-income workers and families, which enables workers who have lost jobs or face reduced wages to use their 2019 income to get a larger refund
- \$4 billion for Gavi, the Vaccine Alliance, which will mean millions of people in low-income countries have access to a COVID vaccine

We've done incredible advocacy in 2020!

2021 housing policy priorities

The logo for 'results' is located in the top right corner. It consists of the word 'results' in a white, lowercase, sans-serif font, set against a red rectangular background that has a small triangular notch on its left side.

Immediate need: keep renters stably housed – estimated need of \$100 billion total in emergency rental assistance over 12 months

- Plus eviction moratorium (push to get new President to enact ASAP)

Then, must address underlying housing crisis with bold long-term solutions

- Dramatically scale up assistance for low-income renters
- May work on increasing supply of affordable housing (infrastructure)
- Longer term/next strategic plan: homeownership

2021 U.S. policy priorities

The logo for 'results' is a red speech bubble with the word 'results' in white lowercase letters.

Tax: expand the EITC and Child Tax Credit (CTC)

- Expanding (and restructuring) the CTC could child poverty by at least [one-third](#)
- Can build on [bipartisan CTC expansion proposals](#)
- Expand EITC for younger workers/others who don't claim dependents
- Once Dems control Senate: large scale tax legislation via reconciliation

Food assistance including SNAP boost beyond the 15 percent for six months included in the bipartisan package passed last month

The pandemic could drive an additional 150 million people into extreme poverty.

Note: Extreme poverty is measured as the number of people living on less than \$1.90 per day. 2017 is the latest year with official global poverty estimates. SAR regional estimates are not shown.

Not just more extreme poverty
– more extreme inequality.
Poor households are hit harder
and recover slower than
wealthier households.

SHORT-RUN IMPACT IN CRISIS
Crises have larger welfare effects on poorer households. This means initial welfare differences between rich and poor get larger.

LONG-RUN RECOVERY
Income growth is often slower for poor households in recovery as they lost human capital and assets during the crisis. This also makes the welfare difference larger.

NEXT CRISIS
Without intervention, this cycle repeats increasing inequality as it goes.
