The RESULTS National Webinar

February 5, 2022

Welcome!

Our Anti-Oppression Values

RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists. We commit to opposing all forms of oppression, including ableism, ageism, biphobia, classism, colonialism, homophobia, racism, religious discrimination, sexism, transphobia, white saviorism, and xenophobia.

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.

Figure 2: Monthly Child Poverty Rates (%) Projected to Increase in Absence of January Child Tax Credit Payment

3.7 million children kept above the federal poverty line by the CTC in December... but child poverty may jump by more than one-third this month!

Note: Potential January 2022 monthly child poverty rates based on December 2021 child poverty rates in absence of the Child Tax Credit. January 2022 figures are subject to change based on final January 2022 employment data and any other changes in COVID-related relief (ex. number of states continuing their SNAP emergency allotment in January 2022).

Congress must prioritize poverty in any deal

Take our Housing Policy Survey

results

RESULTS Housing Policy Survey

There is no one-size-fits-all solution to the U.S. housing crisis. Housing can mean different things to different people. And different communities have different approaches to solving the housing crisis. What follows is a list of questions focused on broader goals, values, and principles for RESULTS volunteer leaders to guide and inform RESULTS' future federal housing advocacy work.

Prior knowledge of housing policy on the federal, state, or local level is not required to complete this survey. Familiarity with how your community is dealing with the housing crisis and what that looks like on the local level are sufficient. Individual responses to the survey are confidential and will not be publicly shared.

Your responses to this survey, along with other criteria and considerations (like current political environment, staff capacity, ongoing advocacy on the state, local, and federal levels), will help shape our housing campaign, and will guide and inform which federal housing policies RESULTS should prioritize, support and advance in the short-term and long-term; our level of engagement with different housing coalitions; and which policies to oppose or not support.

This survey will remain open until Friday, February 11, 2022. Please contact Michael Santos at msantos@results.org or 202-783-4800 ext. 122 if you have any questions or concerns about this survey.

- Share your thoughts on where to take our housing campaign.
- Go to <https://forms.gle/MrZW88rcDajQhQ4V6> to take the survey today.
- Survey closes February 11.
