Inviting Others to Join the RESULTS Movement

Engage: I am a volunteer with RESULTS; an organization where everyday people advocate for a world free of poverty and oppression. In the last year, we helped shape the emergency Covid funding bill that kept millions of people from being evicted and provided monthly child tax credit payments to families. And most recently mobilized 137 House representatives to sign a bipartisan letter demanding robust funding to address the pandemics of AIDS, TB, and Malaria.

Problem: Now adays, it is easy for people get bogged down and discouraged with bad news. They don't think they can make a difference in reaching [*name of your Congressman/Senator*].

Inform: RESULTS has proven to me that I can make a difference! RESULTS has taught me how to meet with and influence our members of Congress, get published, and reach out to our community to bring them into action. Last year, despite the unprecedented challenges we all faced, we made excellent progress on issues I care about. Advocacy keeps me hopeful!

Call to Action: I think 2022 will be another big year for making a difference on the changes we need in our community, and the world, to end poverty. I think this is right up your alley. Would you like to attend our next RESULTS meeting? We'll learn together and take action that makes a difference. Are you in?
