# Our Anti-Oppression Values

The logo for RESULTS, featuring the word "results" in white lowercase letters on a red speech bubble background.

*RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists. We commit to opposing all forms of oppression, including ableism, ageism, biphobia, classism, colonialism, homophobia, racism, religious discrimination, sexism, transphobia, white saviorism, and xenophobia.*

*At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.*

*With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.*

*There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.*

## Share Your Advocacy Story

Share your story about being an advocate! Everyone remembers stories, and RESULTS advocates are creating stories every day when we move members of Congress to act, support someone to take their first action, build new leaders, or publish a piece of media read by thousands of people.

Why are we gathering stories about advocacy? The grassroots team at RESULTS wants to show the world how you do what you do. Some story examples are below, but we'd like to hear about anything you find important. As you share your story, tell about the challenge and the outcome. Tell us how it made you feel and who it affected.

- Getting media published
- Facing a barrier in building a congressional relationship
- Being persistent in your advocacy
- Supporting someone to take on advocacy
- Receiving a personal message from a member of Congress
- A pivotal moment in a congressional meeting
- Stepping outside your comfort zone
- Engaging your community or action network
- Using Motivational Interviewing successfully

**Legislative Overview**

# Our long-term goal: *Economic Justice through the tax code*

# Recap: Congress Failed to Extend Expanded CTC in Year-End Package

results

- Congress passed an omnibus spending bill last month, but they did not include a tax package.
- Democrats stood firm that they opposed any corporate tax provisions unless an expanded CTC for lower-income families was included.
- Ultimately, Senate Minority Leader Mitch McConnell (R-KY) – and other key Senate Republicans – opposed any sort of bipartisan compromise on the CTC and opted not to move their priority tax pieces.

# U.S. Poverty Policy Priorities in 2023 & Beyond

Looking ahead, we want Congress to:

- Make the **tax code** more efficient, fair and accessible to people living in poverty.
- Urge Congress to prioritize **expanding the CTC** in any tax legislation this year.
- Urge Congress to prioritize renters in the federal tax code via a **Renter Tax Credit**, leveraging the tax code to address the affordable housing crisis.

# U.S. Poverty Advocacy Strategy

- Keep the pressure on Congress to advance our priorities.
- Learn about our issues. Take advantage of our resources.
  - Next U.S. Poverty Policy Forum: Thursday, January 19 @ 8pm ET
- Grassroots-informed / grassroots-centered advocacy strategy aligned with our anti-oppression values.

# Ending the Tuberculosis Epidemic

results

Ending the  
tuberculosis  
epidemic

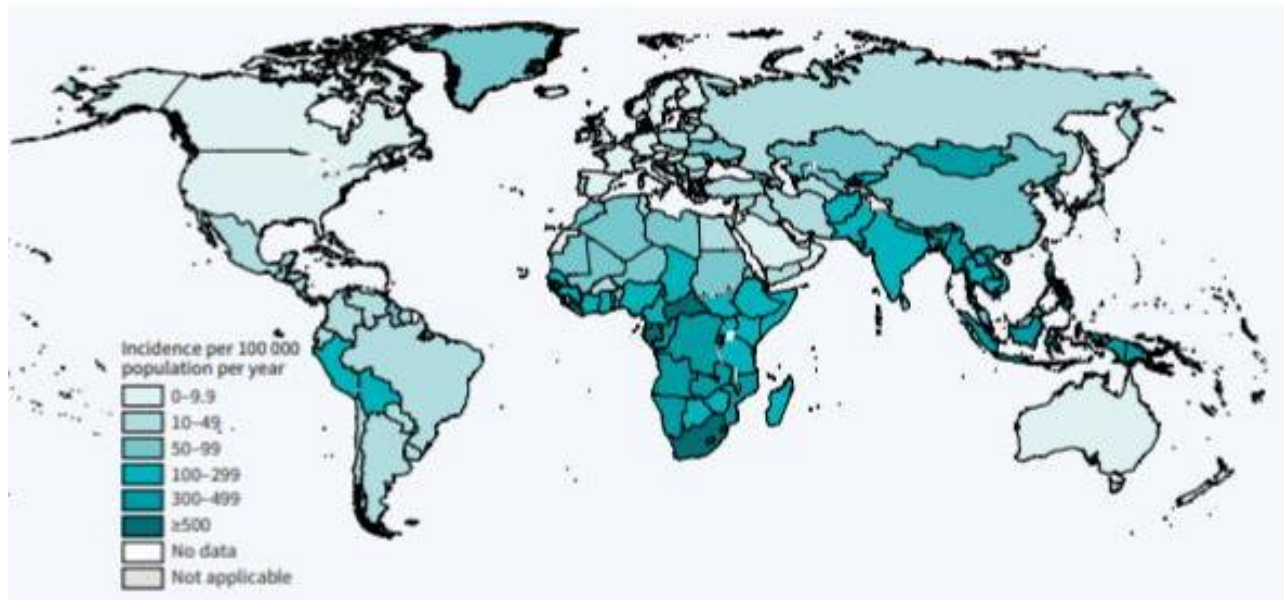

During the COVID pandemic, TB deaths and incidence (new cases) both rose for the first time in years. **Almost 11 million people were sickened and 1.6 million were killed by tuberculosis in 2021.**

TB is caused by an airborne bacteria and anyone who breathes is at risk, but people with compromised immune systems are more susceptible to falling ill.

**We must inspire action to increase TB resources and improve the impact of U.S. global TB programs to prevent/treat/cure all forms of TB.**

# Global Impact

results

Source: World Health Organization 2022 Global Tuberculosis Report

**TB is an issue of health equity.** It disproportionately affects low-income and marginalized communities in the global south, and is a driver of poverty.

# \$1 Billion Needed for Fighting Global Tuberculosis

results

## USAID Tuberculosis Funding

TB is a leading infectious disease killer but its programs are historically underfunded because of who TB most affects.

Annually, Congress weighs in on how the federal government prioritizes its spending across through the "appropriations process."

We must call on Congress to increase annual TB funding at the U.S. Agency for International Development (USAID) in the annual foreign aid spending bill!

# The End TB Now Act

- Aims to **increase equity** and **improve the impact** of USAID's bilateral TB programs.
- Pushes USAID to actively treat and prevent TB in all its forms and to **prioritize low-income and vulnerable populations**.
- Authorizes an ambitious strategy that focuses on **community and patient-centered care** to drive down both incidence rates and deaths.
- Urges USAID to pursue and fund the R&D to **develop new innovations and tools** in the fight against TB.

117TH CONGRESS  
1st Session

**S. 3386**

To prevent, treat, and cure tuberculosis globally.

IN THE SENATE OF THE UNITED STATES

DECEMBER 14, 2021

Mr. MENENDEZ (for himself and Mr. YOUNG) introduced the following bill,  
which was read twice and referred to the Committee on Foreign Relations

## A BILL

To prevent, treat, and cure tuberculosis globally.

1 *Be it enacted by the Senate and House of Representa-*  
2 *tives of the United States of America in Congress assembled,*

### 3 SECTION 1. SHORT TITLE.

4 This Act may be cited as the “End Tuberculosis Now  
5 Act of 2021”.

### 6 SEC. 2. FINDINGS.

7 Congress makes the following findings:

8 (1) More than 25 years after the World Health  
9 Organization declared Tuberculosis (referred to in  
10 this Act as “TB”) a public health emergency and  
11 called on countries to make scaling up tuberculosis  
12 control a priority, TB remains a deadly health

# A Global Opportunity

**September 2023:** A UN High Level Meeting on TB

- The global community has an opportunity to **set new bold goals, with ambitious country-led plans to drive down TB deaths and incidences.**
- The U.S. must lead an effort to urge strong outcomes, including increased resources, and measures of accountability.
