

## Please uphold the U.S. pledge to the Global Fund in the FY27 budget

**Engage:** In 2002, the world came together to create the Global Fund to Fight AIDS, Tuberculosis and Malaria. Over the past two decades, this partnership has [helped save 70 million lives](#).

**Problem:** Despite recent progress in global health, millions of people are still suffering. Tuberculosis (TB) killed 1.23 million people in 2024 alone. But the Global Fund has reduced the combined death rate of the three diseases by 63 percent, treating and preventing millions of cases every year.

**Inform:** In November 2025, the U.S. pledged \$4.6 billion to the Global Fund for the next three years. We recommitted to our matching pledge of \$1 for every \$2 from other donors. Securing the full amount in FY27 will prevent further disruption in life-saving work and demonstrate continued leadership in ending these diseases.

**Call to action:** Will you ensure the U.S. pledge is upheld with new funding, not double counting previously appropriated money? Will you urge appropriators to include \$1.5 billion for the Global Fund in Fiscal Year 2027 (FY27)?
