RISE Advocacy Chapter March Webinar

March 21, 2023
Welcome

Please let us know in the chat where you are joining us from!
Together Women Rise’s Mission

Together Women Rise cultivates the collective power of community to achieve global gender equality.

OUR VISION

Together Women Rise envisions a world where every person has the same opportunities to thrive regardless of their gender or where they live.
At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn’t fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

Advocacy Action
Part 1: Speaking powerfully on appropriations for TB
Tuberculosis - an airborne bacteria - now kills more people each year than HIV and malaria combined.
COVID, conflict, and other crises have specifically taken a toll on the fight against tuberculosis. This disease drives and exacerbates global poverty, and it targets vulnerable populations. Alarmingly, TB cases increased in both 2020 and 2021. In 2021, 1.6 million people worldwide died from this often-curable disease.
The U.S. has been a leader in the fight against TB, and fiscal year 2024 decisions will soon be made in Congress by the committee that funds foreign aid.
Will you write and speak to the leadership of the State and Foreign Operations Subcommittee of Appropriations and ask that they include at least $1 billion for USAID bilateral tuberculosis funding in the FY24 spending bill? Will you also ask for at least $2 billion for the Global Fund to Fight AIDS, TB and Malaria?
Let’s go over it again, this time unmute and shout out the missing information
