# **April Webinar** ***Continuing advocacy on Tuberculosis***

**April 13, 2023**

# Our Values & Resources

*At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.*

*With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.*

**Read our full anti-oppression values statement here at [results.org/values](https://results.org/values).**

Check out the [2023 Spring Anti-Oppression Workshop Schedule](#) for training opportunities.

  - Creating Space for Critical Conversations
- Information on how RESULTS responds to oppressive incidents

# Tonight's Webinar

**Global Allies Program**  
Partners Ending Poverty with RESULTS

- **Welcome and Introductions**
- **Recap of FY24 Appropriations for global programs**
- **More advocacy actions on TB –  
*The End TB Now Act (S. 288 / H.R. 1776)***
- **Advocacy Action: Requesting co-sponsorship of  
the End TB Now Act (S. 288/ H.R. 1776)**
- **Closing**

**SHOW**

# Congress decides where our money goes.

results

Congress sets funding levels for global programs during the **appropriations** process. This funding can support health, education, nutrition, and economic opportunity for families around the world.

funding

# OUR ISSUES

Ending  
preventable  
maternal and  
child deaths

Ending the  
tuberculosis  
epidemic

Access to quality  
education for  
all children

# FY24 Appropriations Requests

**Global Allies Program**  
*Partners Ending Poverty with RESULTS*

# What do we care about TB?

The logo for 'results' is a red speech bubble shape with the word 'results' written in white lowercase letters inside.

**Global Allies Program**

Partners Ending Poverty with RESULTS

1. *It's leading infectious disease killer in the world that is almost completely preventable, treatable, curable. It's a neglected disease because of who it impacts (98% of cases are in low- and middle-income countries). TB is still the leading killer of people with HIV.*
2. *It devastates families—takes down breadwinners. It's a huge barrier to economic advancement and growth due to how it isolates people and how it is stigmatized in most places.*
3. *Can we imagine what would be happening if TB were a huge issue in this country? We used to send people sanatoriums, which were all over the country. We've managed TB here, so we have less concern about TB elsewhere. This is a justice issue.*
4. *Our TB solutions are way behind—the TB vaccine is over 100 years old. Neglect of TB has caused us to fail in coming up with better prevention and treatments.*
5. *COVID set us back over a decade on progress with TB. We need to do more.*

# End TB Now Act (S.288, H.R.1776)

**Global Allies Program**  
Partners Ending Poverty with RESULTS

- 1. Requires the U.S. to establish bold goals for reaching the most vulnerable populations*
- 2. Strengthens U.S. bilateral coordination to develop comprehensive global TB response*
- 3. Catalyzes support for TB research and development (R&D)*
- 4. Improves the capacity of countries and affected communities with high burdens of TB*
- 5. Requires annual reporting to Congress on U.S. TB activities and their impact*
- 6. Evaluates the performance of TB programs that are supported by U.S.*

We want to pass the End TB Now  
Act this year!

*See if your member of Congress has supported TB  
in any way using [our Congressional Scorecard](#)*

USAID Maternal and Child Health	\$890 million	\$890 million	\$1 billion	\$890 million	\$900 million	\$910 million	+20 million
Of which, Gavi, the Vaccine	\$290 million	\$290 million	\$290 million	\$290 million	\$290 million	\$290 million	Maintained
USAID Basic Education	\$950 million	\$693.5 million	\$1.1 billion	\$985 million	\$693 million	\$970 million	+20 million
Of which, the Global Partnership for Education	\$125 million	N/A	\$150 million	\$140 million	\$140 million	\$130 million	+5 million

# Still Work to Do on TB: 2022 WHO Report

- **TB is the second leading infectious disease killer after COVID**
- An estimated **10.6 million** people fell ill with tuberculosis (TB) in 2021, an **increase of 4.5% from 2020**, and **1.6 million people died from TB**, up from **1.5 in 2020** and 1.4 in 2019.
- The burden of **drug-resistant TB (DR-TB) also increased by 3%** between 2020 and 2021, with 450 000 new cases
- The reported number of people newly diagnosed with TB fell from 7.1 million in 2019 to 5.8 million in 2020. There was a partial recovery to 6.4 million in 2021, but this was still well below pre-pandemic levels. **We are missing a huge number of people with TB.**
