# Our Anti-Oppression Values

The logo for RESULTS, featuring the word "results" in white lowercase letters on a red speech bubble background.

*RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists. We commit to opposing all forms of oppression, including ableism, ageism, biphobia, classism, colonialism, homophobia, racism, religious discrimination, sexism, transphobia, white saviorism, and xenophobia.*

*At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.*

*With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.*

*There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.*

Appropriations

# Appropriations Committee

- Uses budget resolution to guide spending levels for 12 sub-committees
- Sub-committees gather input on how to spend money (hearings, direct input from Reps/Senators, sign-on letters, conversations)

# Appropriations Committee

- Every member of Congress can give input on spending preferences to each sub-committee. That input comes from constituents.
- RESULTS focuses on requests to the State & Foreign Operations Sub-Committee of Appropriations (SFOPS).

# Our Requests

1. Please include our requests in your input to SFOPS. Use our “appropriations memos” to make the requests.
2. Please sign on to “Dear Colleague” letters regarding our requests.
3. Please speak or write to SFOPS leadership

# Why These Issues?

1. Nutrition is a human right and children deserve the opportunity to reach their full potential.
2. People everywhere, regardless of their wealth, should have access to testing and treatment for diseases we know how to address.
3. Investing in global health benefits all of us—those who have direct access and the global community.
