

**Congress of the United States**  
**Washington, DC 20515**

March 28, 2019

The Honorable Nita M. Lowey  
Chairwoman  
Subcommittee on State, Foreign Operations,  
and Related Programs  
HT-2, The Capitol  
Washington, DC 20515

The Honorable Hal Rogers  
Ranking Member  
Subcommittee on State, Foreign Operations,  
and Related Programs  
2406 Rayburn House Office Building  
Washington, DC 20515

Dear Chairwoman Lowey and Ranking Member Rogers:

Thank you for your leadership and dedication to global health. We write to request that you provide \$400 million in funding for bilateral tuberculosis (TB) control in the Fiscal Year (FY) 2020 State, Foreign Operations and Related Programs Appropriations bill.

**TB is a curable, airborne infection that now kills more people worldwide than any other infectious disease.** In 2017, 10 million people became ill with TB, 10 percent of whom were children. In the same year, 1.6 million people died from TB. TB is frequently economically devastating for individuals and families, and health care personnel are disproportionately at risk.

Of particular concern is drug-resistant TB, which is significantly costlier and more difficult to treat than drug-sensitive TB. Unfortunately, most people with drug-resistant TB are still going undiagnosed and untreated.

TB is the leading killer of people living with HIV/AIDS, and of the 10.4 million people who became ill with tuberculosis in 2016, one-in-ten live with HIV/AIDS. Failure to invest in TB, and integrated TB and HIV responses, threatens the substantial gains we have made in the fight against HIV/AIDS, and broader development successes.

Funding for USAID's TB program helps build capacity to prevent, diagnose and treat this curable disease, using the latest methods, and it supports the development and implementation of new technologies to end TB. With USAID support, countries have significantly reduced the rate of new cases, strengthened the capacity of countries to respond on their own, and developed simpler, more efficient, and cost-effective treatment.

The Honorable Nita M. Lowey  
The Honorable Hal Rogers  
Page Two

Momentum is building to end TB, with important advances in diagnosis and treatment, as well as growing political will and community engagement. At last year's UN High Level Meeting on TB, 120 countries agreed to ambitious new detection, treatment and prevention targets. With growing engagement at all levels in key countries, the U.S. has a major opportunity to lead the world in ending TB as a global health security threat.

We acknowledge the difficulty you face in determining the best allocation of precious foreign assistance dollars. We thank you for your continued support of USAID's TB control program and urge you to prioritize TB as you finalize the FY 2020 appropriations bill.

Sincerely,

ELIOT L. ENGEL  
Chairman  
House Committee on Foreign Affairs

KAREN BASS  
Chair  
Subcommittee on Africa, Global Health, Global Human Rights, and International Organizations
