Global Allies Program

Partners Ending Poverty with RESULTS

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

Disrupting Biases on Poverty and Classism Facilitated by RESULTS Experts on Poverty Friday, June 7, 12:00-1:30 p.m. ET

Ending poverty is not possible without addressing oppression and centering the voices of those with lived experiences of poverty. The tools provided in this session will help you build more transformational relationships and create inclusive, welcoming environments in your groups with trauma-informed advocacy in mind.

**Restorative Justice & Global Conflict, facilitated by
DC Peace Team**

June 17 | 8 PM ET to 10 PM ET

This session will be held as a space for you to openly share how global conflict is impacting how you show up as an advocate. This space will NOT be an exchange for political or religious ideology, but rather a safe place for expression and how war in other areas of the world is affecting us. The space will also allow for reflection on how we can utilize restorative processes to move toward personal and global healing.

- **1 billion** children immunized
- **17 million** future deaths prevented
- **50%** of the world's children vaccinated by Gavi
- **\$54** returned for every \$1 invested
- **19** countries transitioned out of support

Gavi, the Vaccine Alliance is a public-private partnership that helps vaccinate more than half the world's children against some of the world's deadliest diseases.

 **>1bn**
children vaccinated through routine programmes, 2000-2022 – more than 68 million in 2022 alone

The vaccine goal.
56%
Breath of protection with vaccines in the Gavi portfolio is now higher in Gavi-supported countries (56%) than in the rest of the world (53%).

- 80 Gavi-supported vaccine introductions and preventive campaigns took place in 2022 – in addition to 40 national response vaccination campaigns supported by Gavi.
- 4 key SDG vaccines saw an increase in coverage among the 37 Gavi-supported countries since 2021.
- 20 countries assessed cholera, Ebola, meningococcal and yellow fever vaccines through Gavi-supported emergency readiness a total of 39 times in 2022.

 **>1.8bn**
vaccinations through preventive vaccination campaigns, 2000-2022

>17.3m
future deaths averted, 2000-2022. In addition, >2.7m deaths were averted by COVAX across participating low- and middle-income countries.

The equity goal
81%
In 2022, DTP3 coverage in Gavi-supported countries rebounded to 81% after two years of decline (compared to the 84% global average).

- 2.6 million more children received basic routine immunizations through Gavi-supported health systems in 2022 than in 2021.
- 47 countries have installed more than 45,000 GCE units procured by UNICEF Supply Division through Gavi's CS3SP – nearly 14,000 in 2022 alone.
- 25 Gavi-supported countries increased MCV3 coverage from 2021 to 2022, but smaller investments remain a significant concern.

The sustainability goal
\$1.5bn by and 2022
In the face of fiscal challenges, climate change, conflict and instability, most Gavi-supported countries maintained or increased domestic resources for co-financing of Gavi-supported vaccines in 2022, bringing to US\$ 1.5 billion their total contribution since the introduction of the co-financing policy in 2007.

- US\$ 616 million was contributed by countries towards the co-financing of Gavi-supported vaccines in 2022 – the highest amount yet and a testament to country ownership and the long-term financial sustainability of Gavi-supported vaccines.
- 39 vaccine programmes originally financed with Gavi funding are now self-financed by countries as of 2022, up from 28 in 2021.
- 100% of countries fully met their 2022 co-financing obligations – except those values for humanitarian crises.
