# RESULTS Anti-Oppression Values

The RESULTS logo consists of the word "results" in a white, lowercase, sans-serif font, positioned inside a red speech bubble shape that points downwards.

*RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. Poverty cannot end as long as oppression exists.*

*We commit to opposing all forms of oppression, including racism, classism, colonialism, white saviorism, sexism, homophobia, transphobia, ableism, xenophobia, and religious discrimination.*

*At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.*

*With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.*

*There are no saviors — only partners, advocates, and allies. We agree to help make the RESULTS movement a respectful, inclusive space.*

# Still Work to Do on TB

**End TB Now** - H.R. 8654 S.8836. Here's what the bill will do:

- Requires the U.S. to establish bold goals for reaching the most vulnerable populations with TB
- Strengthens U.S. bilateral coordination with global organizations to develop and implement a comprehensive global TB response
- Catalyzes support for research and development (R&D) of new tools to prevent, diagnose, treat, and control TB
- Improves the capacity of countries and affected communities with high burdens of TB
- Requires annual reporting to Congress on impact of U.S. TB activities

*Partners Ending Poverty with RESULTS*

- TB is the second leading infectious disease killer after Covid
- An estimated 10.6 million people fell ill with tuberculosis (TB) in 2021, an increase of 4.5% from 2020, and 1.6 million people died from TB, up from 1.5 in 2020 and 1.4 in 2019.
- The burden of drug-resistant TB (DR-TB) also increased by 3% between 2020 and 2021, with 450 000 new cases
- The reported number of people newly diagnosed with TB fell from 7.1 million in 2019 to 5.8 million in 2020. There was a partial recovery to 6.4 million in 2021, but this was still well below pre-pandemic levels. We are missing a huge number of people with TB.
- We are going the wrong direction on TB and have to do better.
