

Voices that Change the World

RESULTS is a movement of passionate, committed everyday people. Together we use our voices to influence political decisions that will bring an end to poverty. As volunteers, we receive training, support, and inspiration to become skilled advocates. In time, we learn to effectively advise policy makers, guiding them towards decisions that improve access to health, education, and economic opportunity. Together we realize the incredible power we possess to use our voices to change the world.

What is the RESULTS Ladder of Engagement?

To end poverty, many voices are needed. We must have a welcoming environment for new people to join our movement. We must have a supportive structure within RESULTS and within our groups for all of us to learn new skills. We need to create a culture of diversity, trust, and inclusivity where everyone has the chance, power, and responsibility to take action.

How do groups grow & thrive?

How do we engage new members, empowering them while not overwhelming them or flooding them with jargon?

How do we engage current members to grow and take on new challenges and leadership goals?

The ladder of engagement is a resource to help:

- People new to RESULTS find the tools they need and want to build a foundation for making a difference.
- Current RESULTS activists reference the next step in reaching their capacities and advocacy goals.
- Leaders support others in becoming powerful advocates.

Use the conversation tips on page 3 to engage people at each level to take the next step on their ladder of engagement with RESULTS.
