

Tips for using these slides

- As you prepare for your meeting, here are some quick suggestions for powerfully using these slides:
 - Plan an agenda for your meeting, around an hour. Be sure to include an introduction of RESULTS and time for attendees to take action.
 - The slides contain three videos, one each on maternal health(slide 4) , the Global Fund(10), and early childhood development(17). You can find the links to these slides in the notes on the respective slide. We suggest opening the links in advance of the meeting to ensure videos are ready to view.
 - Include time in your agenda for attendees to take action after the presentation. You can find links to actions on the Take Action slide.

the power to end poverty

**Then and Now:
Progress Toward the End of Extreme Poverty**

Perception vs. Progress

- A new survey across 26 countries reveals a startling public perception of extreme poverty.
 - Nearly 9 in 10 people feel the state of extreme poverty has either become worse or not improved in the last 20 years.
 - Only 8% of U.S. respondents feel extreme poverty has declined.
 - When asked if ending global poverty is possible, 67% of respondents feel it is “very unlikely to rather unlikely” to end global poverty by 2030.
-

Perception vs. Progress

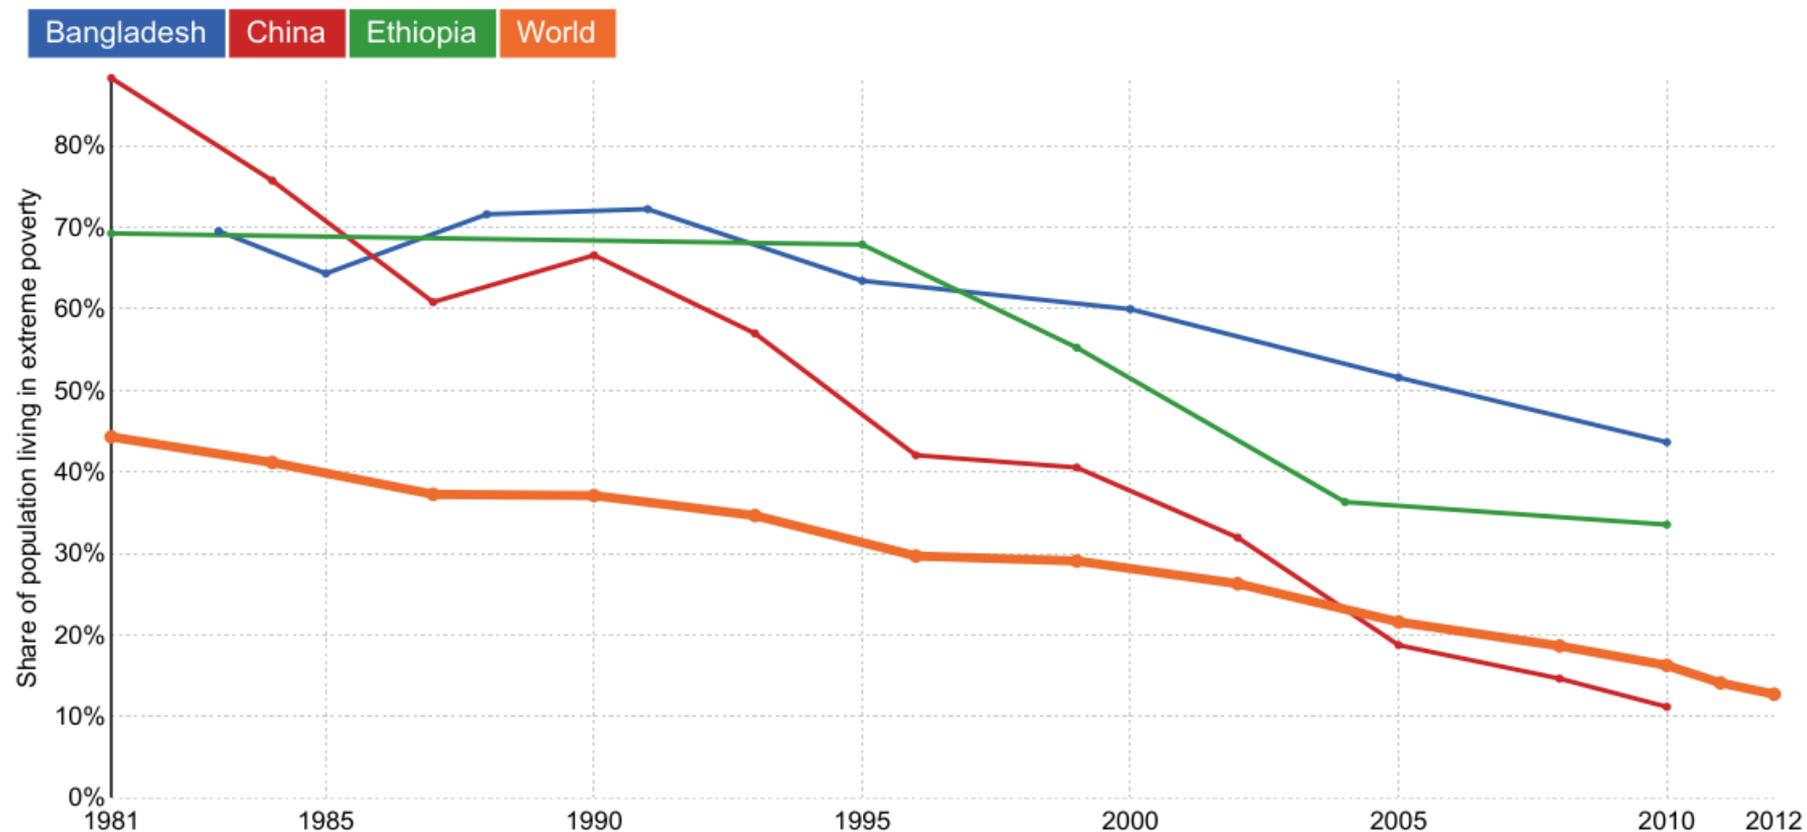

- In fact, rates of extreme poverty have been more than halved.
- What does it mean that this perception exists? Will people take action when they believe our efforts thus far have not been successful?

We need to change this narrative.

Here are the facts:

Share of the population living in extreme poverty, 1981 to 2012

Extreme poverty is defined as living with an income of less than 1.90\$ per day.

Take Action

- A key part of every RESULTS meeting is taking action. Let's build on the incredible success we've had in moving the world closer to the end of extreme poverty.
- Actions you can take now:
 - [Write to your Senator or Representative](#) and urge them to be a champion for the end of extreme poverty.
 - Write a [Letter to the Editor](#) to your local paper about the progress on extreme poverty.
 - Visit our [Take Action](#) page to find the most current and powerful action on global poverty.
