Our Values & Resources

The logo for RESULTS, featuring the word "results" in white lowercase letters on a red speech bubble background.

At RESULTS we pledge to create space for all voices, including those of us who are currently experiencing poverty. We will address oppressive behavior in our interactions, families, communities, work, and world. Our strength is rooted in our diversity of experiences, not in our assumptions.

With unearned privilege comes the responsibility to act so the burden to educate and change doesn't fall solely on those experiencing oppression. When we miss the mark on our values, we will acknowledge our mistake, seek forgiveness, learn, and work together as a community to pursue equity.

Recap of Gavi Global Forum in Paris

Global Allies Program

Partners Ending Poverty with RESULTS

- At June 20 conference, Gavi officially introduced a new 5-year strategy and aims to protect 500 million children save more than 8 million lives between 2026-2030.
- **60 % by 2040** - Launch of the African Vaccine Manufacturing Accelerator (AVMA), African Union has a goal to produce 60% of the continents' vaccines by 2040.
- The Biden Administration's figure of at least \$1.58 billion over 5 years sets us up for historic success.
- U.S. pledge with ample bipartisan support was never a "given" – this is a result of your advocacy efforts!
- **Now we'll need Congress to deliver that funding — and push the amount even higher.**

What did you observe?

Can this work with your member at a future meeting?

1. Follow up from past meetings
2. Sent information ahead
3. Attitude of gratitude
4. One person/group representative of a number of constituents (or potentially partners!)
5. Firm, but not adversarial
6. Offers new information and solutions, and when you don't know the answer, ok to say that!
7. Anything else?...

- 1) More children are being immunised than ever before**
- 2) Yet immunisation coverage has remained steady overall**
- 3) Countries in Africa are bucking global trends**
- 4) Breadth of protection against disease is increasing**
- 5) More girls are being protected against cervical cancer than ever before**
- 6) Too many children still aren't receiving any routine immunisations**
- 7) Measles outbreaks are an ongoing threat**

Take Action on Gavi!

Call the Capitol Switchboard at (202) 224-3121 and ask for the office.

Hello! My name is **Name**. I am a constituent living in **city or zip code** and a volunteer with Together Women Rise. I am calling to share my support for Gavi, The Vaccine Alliance and House Resolution 1286/ Senate Resolution 684.

Last year almost 5 million children worldwide died before their fifth birthday. The leading cause of death is a lack of access to basic health services like vaccines. 14 million kids missed out on the most basic vaccines and this is the most cost-effective way to save lives.

Since 2000, Gavi, the Vaccine Alliance, has helped improve access and introduce new vaccines to fight killers like pneumonia, diarrhea, and now malaria. Gavi is preparing to support over 20 African countries to introduce the new malaria vaccine and help others vaccinate low- and no-dose children for these insidious diseases. **Representative/Senator Name**, will you co-sponsor the bipartisan Gavi resolutions (S.Res. 684/H.Res. 1286)? It will send a message to the rest of the world that we need to act now. Thank you!
